

**Commissioner Meeting
August 2, 2022**

Commissioner John Hokana called the meeting to order at 9:00 am. Present were Jerry Walsh, Marke Roberts, Joel Hamar, Dean Simek, and Chairman John Hokana. Auditor Wanda Sheppard and resident Cindy Bagley were also present. Clerk of Court Andi Schimke, Deputy Clerk of Court Cresta Miller, Deputy Auditor Stormy Bertsch, States Attorney Kim Radermacher and Deputy Treasurer Lori Wald were also present via electronic means. The media was not present. The Pledge of Allegiance was recited.

Additions to the agenda

Policy on employees attending fire department calls during county hours

JDA

GIS system

Walsh made a motion to approve the draft of the minutes from July 19th, 21st, and 26th with corrections. Roberts seconded. Motion carried.

Simek made a motion to approve the vouchers presented. Hamar seconded. Roll call vote with Roberts yes; Hamar yes; Simek yes; Walsh yes; Hokana yes. Motion carried.

Simek reported on a phone call received concerning Dickey County's policy on employees going to fire department calls. Commission discussed that it is an emergency issue and that they encourage employees to assist with public service issues, such as fire and ambulance. Commissioners are concerned that it would not be taken advantage of or that it would leave the county short-handed. The decision was made to leave that decision to the supervisor, as they would know the department's needs.

Tax Director Don Flaherty joined the meeting at 9:45. Administrative Assistant Shirlene Wagner joined the meeting at 9:50 via electronic means.

Walsh reported to the Commission and JDA secretary Flaherty on a program that is housed in the Bank of North Dakota building that works with new business owners that are wanting to start a new business. The program is free for individuals starting a new business. Discussion included the possibility of using this program for all individuals requesting funds from JDA. Flaherty stated that the JDA Board does ask that individuals meet with South Central Dakota Regional Council, as well as Growing Small Towns. Flaherty stated he will look into this program.

Sheppard reviewed with the Commission the requested changes that had been made on budgets based on the July 27th budget meeting. Sheppard reported that the Prairie Dog funding report has been changed since the original budget was compiled. The amount has decreased and the reports received from NDACo were reviewed. The Commission requested District 28 Representative Mike Brandenburg to join the meeting to discuss this legislation. Brandenburg felt that the county should be receiving the money in April, as long as the "bucket" keep filling, with the oil prices at the current rate. Brandenburg will verify with Legislative Council on the issue and inform the Commission when the information is received.

Radermacher spoke with the Commission on the increase of hours for the Administrative Assistant for the State's Attorney. Her assistant is currently at 50% and Radermacher is requesting it be increased to 55% to 60%. After the discussion, Roberts made a motion to increase the Administrative Assistants hours to 60% or 24 hours per week. Hamar seconded. Roll call vote with Hamar yes; Roberts yes; Hokana yes; Walsh yes; Simek yes. Motion carried.

Commission discussed a request from Health District Administrator Roxanne Holm concerning her Administrative Assistant. Discussion followed, but no decision was made.

Highway Superintendent Jeff Hagen, DES/911 Coordinator Charlie Russell, and Sheriff Chris Estes joined the meeting at 10:34.

The meeting went into recess at 10:35, returning at 10:40.

Representatives of Applied Blockchain, Inc. Nick Phillips and Lance Cummins, representatives of Olson Effertz Lobbying and Consulting, LLC Kayla Effertz Kleven and Lisa Feldner, District 28 representative Mike Brandenburg, and resident Jim Grueneich joined the meeting at 10:40 to discuss the building of a new facility of Applied Blockchain in Dickey County, west of Ellendale. Brandenburg and Grueneich have come as well to facilitate the group connecting with those of leadership in Dickey County. Applied Blockchain has a facility in the Jamestown area and are now planning a facility in Dickey County. The company offers technology space for all companies. They have been working with MDU to assist in locating the amount of power that would be required for their buildings. When fully operational, there would be approximately 30 full time jobs. It would require 75 to 100 people to put the buildings up, as they are completed quickly. Local vendors are used, if at all possible. There will be staff at the site 24/7, with approximately 10 people on site at a time. Their goal would be to pour forms before freeze up occurs. The location in Dickey County will be larger than that in Jamestown, as Jamestown is a 100-megawatt location and Ellendale will be a 180-megawatt location. They will be working with the Ellendale Township on zoning laws to ensure all requirements of the township are followed as well. Commission asked that they stay in contact with the county so that the Commissioners

are aware of where things are with the project. Commission thanked them for coming and asked that they stay in contact as things develop.

KLJ Engineer Bryan Tykwinski joined the meeting via electronic means at 10:50.

Brandenburg updated the Commission on information he received from Legislative Council on Prairie Dog funding. Brandenburg feels the "bucket" will be filled by February, which would be a payout to the county in April or so of 2023.

Deputy Tax Director Nicole Kempf joined the meeting at 11:15, via electronic means.

Flaherty had been requested to review the GIS program at NDACo, as had been marked as a possible use of ARPA money. Flaherty informed the Commission on information he received from NDACo concerning their GIS services they provide. NDACo representative Jason Horning stated that the program is a support service to smaller counties on projects specifically related to a GIS that may already be in place. They would not be assisting in setting a whole new system. Flaherty feels that a new county GIS program would not have to be looked at immediately but will need to be addressed within the next three to five years.

Tykwinski informed the Commission that the bridge on County Road 6 and north of County Road 3 has been removed. The work to place the new structure will start middle of the week. The pavement project on County Road 8 is still set to start beginning of September.

Hagen stated he had located two spots for crushing gravel. Hagen received a quote for completing patchwork on County Road 12 for approximately \$52,000. A decision was made to hold off on the patchwork on County Road 12. A meeting will be held after the main Commission meeting on August 16th at 1:00 pm to get input from the public on options for proceeding with that road. Sheppard will put a notice in the paper of the meeting, along with an announcement on the radio and the community channel on DRN television.

Resident NaTanya Olson joined the meeting at 11:30.

The representative from Summit Carbon Solutions did not come to the meeting, as there was a mix up on schedules.

Sheppard presented the contract for engineering services from KLJ for the next two years. Based on the review and approval of the contract by Radermacher, Hamar made a motion for the auditor to sign the contract. Roberts seconded. Roll call with Simek yes; Walsh yes; Hokana yes; Roberts yes; Hamar yes. Motion carried.

Discussion concerning salary increases for the 2023 budget year was discussed. Based on the website that the county uses, the cost of living (COL) increase was 8.3% for the last 12 months. This is a very large increase, but coincides to the rate of inflation at this time. After some discussion, Roberts made a motion to approve the 8.3% COL and one step on the pay scale with a maximum increase of \$5,000, excluding those that are changing jobs or funding source. Simek seconded. Sheppard stated that the maximum will affect eleven positions. Roll call vote with Walsh yes; Hokana yes; Roberts yes; Hamar yes; Simek yes. Motion carried. With this change the pay scale will need to be reviewed before budgeting for 2024. The Commission plan to review the salary scale, starting in April 2023.

A request by Holm for a three-step change for an employee was discussed. Hamar made a motion to use the motion as stated earlier, to be consistent with all positions. Simek seconded. Discussion followed that the request was made because of an error made earlier. Roll call vote with Simek yes; Walsh no; Hokana no; Roberts no; Hamar yes. Motion failed. Roberts made a motion to move Administrative Assistant Kerry Waldo from a step 4 to a step 6 for 2023, which is one extra step on the scale. Walsh seconded. Discussion followed concerning the conversation earlier in the year concerning the error made. Roll call vote with Walsh yes; Hokana yes; Roberts yes; Hamar no; Simek no. Motion carried.

Sheppard presented the changes made on the Road and Bridge fund. Due to the current economic conditions, the leasing of a new motor grader is difficult due to the changes in the interest rate being unstable. Walsh showed a change in his calculation, with the assumption that the county would use some of the ARPA funds to purchase the new motor grader and have an extended warranty of seven years. Walsh made a motion to purchase the JD 872 motor grader with an extended seven-year warranty using ARPA funds. Roberts seconded. Roll call with Hamar yes; Simek yes, Walsh yes; Hokana yes; Roberts yes. Motion carried.

Sheppard showed to the Commission with all the budget changes made where the county mills will be. Walsh made a motion to approve the preliminary with the changes discussed today, along with changes made at the July 19, 21, and 27th meetings. Hamar seconded. Commission thanked the Auditor's office and all staff members for all their hard work, abiding by the rules and getting the reports to the Auditor's office on a timely basis. Roll call vote with Walsh yes; Simek yes; Hamar yes; Roberts yes; Hokana yes. Motion carried.

Walsh made a motion to adjourn at 1:55.

**Commissioner Meeting
August 16, 2022**

Commissioner John Hokana called the meeting to order at 9:35 am. Present were Jerry Walsh, Joel Hamar, Dean Simek, Marke Roberts and Chairman John Hokana. Auditor Wanda Sheppard and resident Cindy Bagley were also present. States Attorney Kim Radermacher, Clerk of Court Andi Schimke, FEMA Administrative Assistant Amy Mittleider, and Deputy Auditor Stormy Bertsch were present via electronic means. The media was not present. The Pledge of Allegiance was recited.

Additions to the agenda

Oakes Shop

Mowing ditches

Pledge to the flag

Human Services Zone budget

Hamar pointed out a law Governor Burgum is proposing concerning the pledge being cited at government meetings.

Roberts made a motion to approve the draft of the minutes from August 2nd with changes. Walsh seconded. Motion carried.

Hamar made a motion to approve the vouchers as presented. Simek seconded. Roll call vote with Roberts yes; Hamar yes; Simek yes; Walsh yes; Hokana yes. Motion carried.

Walsh made a motion to approve the July 2022 financial statement. Simek seconded. Roll call vote with Hamar yes; Simek yes; Walsh yes; Hokana yes; Roberts yes. Motion carried.

Administrative Assistant Shirlene Wagner and Orsted representatives Nick Gebauer, Claire Dittrich, and Jonathon Vazdekaz joined the meeting via electronic means at 9:50.

County Agent Breana Kiser and Family and Community Wellness Agent Danielle Dinger joined the meeting at 9:55 and presented the list of responsibilities of the Administrative Assistant for the County Agent's office. Kiser and Dinger will return this afternoon to present their narrative of the happenings for the last quarter.

DES/911 Coordinator Charlie Russell, Tax Director Don Flaherty, Treasurer Wonada Lematta, and resident Drew Courtney joined the meeting at 10:00.

Hamar stated that the Commission needs to look at the current zoning regulations in Dickey County, as there have been large projects coming in the county that the Commission are not aware of. Hamar stated the only zoning the county currently has covers animal feed lots. Radermacher stated that if no regulations are in place in the county, the zoning reverts to the policy at the state level. Sheppard will add zoning to the agenda for the September 6th meeting.

Summit Carbon Solutions representative Charlie Adams joined the meeting at 10:05.

Vasdekaz introduced the group in attendance involved with the Webber Wind project. Dittrich gave a slide presentation on the plan for the project and timelines for possible installation of the wind towers. A history of Orsted was given, with a map showing areas where Orsted currently has projects in place. When questioned on the number of towers, Vasdekaz stated that with the changes in technology, that number will be more accurate as the project develops. The current activity on the project is securing land for the towers. Vasdekaz stated that there are landowners that are waiting to see a draft lease agreement, before any decisions would be made. Townships that could be involved would be Ellendale, Elm, Lorraine, Elden, Albion, and Grand Valley.

Adams introduced himself to the Commission as the new Manager of Agriculture and Stakeholder Relations with Summit Carbon Solutions. Adams plans to attend the Commission meeting often to give the Commission an updated on the status of the project. Discussion followed concerning the controversial subject that the pipeline is and the need for better customer relations with the land owners. Roberts questioned if Summit plans to use eminent domain as earlier discussed, to get the land needed. Adams stated that Summit's desire is to come to an agreement with the affected land owners without using eminent domain. Courtney asked if the application to the Public Service Commission had been filed. Adams stated that they currently are on track to submit that application in October. The encasing for pipes under county roads will be discussed at a later time.

Sheppard stated no bids were received for the miscellaneous equipment that had been listed on BisMan and on Facebook. A price will need to be set so that Mittleider can sell the items on Facebook.

Treasurer Lematta presented the Pledge and Quarterly report for second quarter, 2022. Hamar made a motion to sign the quarterly report. Roberts seconded. Roll call vote with Walsh yes; Simek yes; Hamar yes; Roberts yes; Hokana yes. Motion carried.

Lematta and Sheppard updated the Commission on the Stewardship award they had received from the State Auditor's office yesterday. This is only the third time the award has been given out. The 2021 financial audit was clear without any comments, with more of the work completed by Dickey County staff. The staff was commended on their willingness to supply information as requested in a prompt manner. Lematta and Sheppard both feel that the award is also for our support staff, as they help out as well. A certificate will be received by Lematta and Sheppard through the mail.

Hagen presented a contract for blading from Potsdam township for this year. Discussion followed concerning contracts received this late in the season. Simek made a motion to approve the contract. Roberts seconded. Roll call vote with Roberts yes; Hamar yes with reservations due to the lateness of the contract; Simek yes; Walsh yes; Hokana yes. Motion carried.

Hagen presented a map from resident Kyle Courtney, who is requesting a variance for trees in the right of way. He is planning to remove the old trees and planting new ones. It was noted that there is a line of evergreens that are not in the county right away. If the trees were planted along the line of the evergreen trees, a variance would not be needed. The policy of the Commission is that if the trees block snow on the road because of the proximity to the road, it is the responsibility of the landowner to remove the trees. Hamar made a motion to approve the variance, if needed after reviewing the placement of the evergreens south of the proposed tree belt. Simek seconded. Roll call vote with Simek yes; Hamar yes; Roberts yes; Hokana yes; Walsh yes. Motion carried.

Simek stated he had given Lacina Farms permission to clean out the silt from the ditch along County Road 8, as Hagen had not called them after the last Commission meeting to let them know they could clean it out.

Walsh discussed the information requested from RDO Equipment concerning extending the warranty on the three blades that are currently leased. Sheppard will ask for clarification on how long the price quoted is valid and the coverage offered by those extended warranties.

Estes discussed with the Commission a building in Oakes that may be used to replace the Highway Shop building. Roberts and Hokana have looked at the building. Discussion followed concerning the use of the space and the offices that are in the building. A decision was made for the Commission to look at the property next Tuesday, August 23rd at 10:00 am. Estes will verify that the date and time will work for the owner.

Sheppard presented a liquor license transfer application from the Angry Beaver for a wedding at the Jeff Anderson farm in Clement Township. The township has approved the application and the Angry Beaver has made Estes aware of the event. Discussion followed concerning server training that was discussed at the Health District meeting earlier today. Roberts made a motion to approve the transfer. Hamar seconded. Roll call with Hokana yes; Walsh yes; Simek yes; Hamar yes; Roberts yes. Motion carried.

Roberts informed the Commission about employee calls he has received concerning the salary motion made at the August 2nd meeting for the 2023 budget. Roberts has received calls concerning requests by employees to allow an employee to waive the step increase for this year. Discussion followed how this would affect raises in the following year. Sheppard stated that any waiver by the employee would need to be in writing so that all parties understand what is being waived. Roberts made a motion to allow employees the option to waive their step increase for this year, with the understanding that the employee will not recover that step the following year. Hokana asked for a second. Hearing no second, the motion failed.

Sheppard presented the budget submitted by the South Country Human Services Zone for the 2023 budget year for the Commissioners review. Hamar commented on the salary schedule.

The meeting went into recess at 12:20 and returned at 1:30.

The following people joined the meeting to discuss Dickey County Road 12 (Guelph Road). Residents Bob German, Bob Courtney, Geri Courtney, Pat Roney, Brandon Carlson, Scott Muggli, Gene Wiek, Harvey Scheffert, Cory Schall, Drew Courtney, Terry Andersen, Ryan Forward, Michael German, Rod Sell, Cindy Bagley, and Kyle Courtney were in attendance, with Tim Kunrath attending via electronic means. Dickey County Highway Superintendent Jeff Hagen and KLJ Engineer Bryan Tykwinski were also in attendance. Commissioners Hokana, Walsh, Hamar, and Roberts were in attendance.

Hokana stated the reason for this meeting is to discuss the need to fix the Guelph Road and to widen the road because of safety issues with semi-trailer traffic. Discussion followed about the application that the county put in with the State of North Dakota for the road safety grant, which was denied because of the low traffic count and the low accident record. The Commission stated they are open to ideas on the best route to do the work needed on the Guelph Road, keeping in mind the lack of availability of money to complete the project.

Tykwinski updated the residents and Commissioners on the cost of road repair at this time. Dickey County has 80 miles of paved roads and the life of the asphalt is approximately 20 years. To continue to maintain the 80 miles of paved roads, Dickey County should be completing maintenance on four miles each year, which would cost approximately \$800,000 as a minimum. Dickey County receives approximately \$250,000 a year for federal aid to be used on roads. To complete the maintenance on County Road 8, the county has had to borrow ahead on the federal funds by five years.

Tykwinski gave the options listed below for the Guelph Road.

Option 1 would be to put chip seal on the road with heavy patching in spots at a cost of just under \$700,000. If this option is chosen, the county would need to do a seal coat on the road in a couple years.

Option 2 would be to do micro chipping at a cost of approximately \$1,000,000.

Option 3 would be to put a maintenance overlay on the road at a cost of \$1,600,000 to \$1,800,000.

Option 4 would be to do a structural overlay at a cost of approximately \$2,500,000. Some spots would need to be widened to choose this option.

Option 5 would be to do a full reconstruction of the road at a cost of approximately \$5,500,000.

Option 6 would be to grind up the road, leaving it as graveled. Additional gravel would need to be placed into the mixture. The cost for this option is \$540,000, which includes the grinding of the road and the gravel.

Option 7 would be to use option 6 and place a stabilizer agent to the road to make it a better gravel road, at a cost of \$450,000.

Hokana asked those in attendance what their feelings were concerning putting the road to gravel or not. All were in agreement that they would like to road to stay paved. Drew Courtney stated he felt the number one goal should be to get the road widened. Courtney discussed an earlier discussion concerning a clay pile that is very close to the road that has had a historical study on and has been approved for use for a project such as this. Russell will verify that the clay has been approved for use. Courtney also stated that Hudson and Clement Township had applied for grant money through the state to widen all intersections, if the grant was approved. This would assist this project, if approved. Discussion followed about where the road was the worst, which overwhelming agreed was from Guelph to County Road 5. It was also brought to the Commissioners attention that the Guelph Road is the lowest tonnage road in the county.

Roney reminded the Commission that there still is the issue of County Road 3 east of Oakes, that has still not been repaired. Hokana reminded Roney that this meeting has to do with Guelph Road.

Muggli stated the question of why the roads we do have are not being maintained. Why fix them if we are not going to maintain them.

Roberts stated that they are trying to fix this road at this time. We do not have all the funds to fix all the roads. The group agreed that safety is the biggest issue at this time.

D Courtney asked if Tykwinski could put something together using the clay as discussed earlier to at least fix the widening of the road first. Could this option be discussed at the next Commissioner meeting?

Sheppard gave an update on her findings concerning the prairie dog fund money. It is still not clear if the county will get the money in this biennium.

Walsh discussed the option of the purchase of an Asphalt Zipper, a full depth reclamation implement, to grind up the road and stabilize the base, using county resources and not using outside contractors. German asked how many miles the machine is capable to handle. The machine can reclaim up to 2 miles per day, depending on the road depth, width, etc. Walsh stated it is the most economical way to repair roads long term.

Tykwinski will put together a rough estimate to present to the Commission at the next Commissioner meeting.

County Agent Breana Kiser and Family and Community Wellness Agent Danielle Dinger joined the meeting again at 2:30 to present their narrative of the last quarter.

The budget hearing was set for September 20th at 1:30 pm.

Kiser and Dinger discussed with the Commission the revised job description put together by Kiser and Dinger. Walsh had asked for a job description to consider if the job was a full-time position. No decision was made, as not all Commissioners were present.

Sheppard requested the addition of an invoice from Economy Oil be approved, in the amount of \$24,810.60. Hamar made a motion to approve the invoice for payment. Walsh seconded. Roll call vote with Hamar yes; Walsh yes; Hokana yes; Roberts yes. Motion carried.

Hamar made a motion to adjourn the meeting at 3:25.

Special Commissioner Meeting August 23, 2022

Chairman John Hokana, along with Commissioners Marke Roberts, Joel Hamar, Jerry Walsh, and Dean Simek met at the Dickey County Highway Shop in Oakes at 10:00 to review the building in Oakes that is currently used for housing of the county motor grader. With the increase in size of the motor grader, a decision had been made to look at the building for any opportunities for expansion with the building and the feasibility of the current building.

After viewing the building, the Commission, along with Sheriff Chris Estes, and residents Evangeline Roney, Bud Larson, and Brent Larson went south of Oakes, to discuss the possibility of purchasing a building there. Information was gathered and the space was reviewed. No decisions were made.
