Flaherty presented information to the Commission concerning ag land values for the 2022 tax year. Dickey County's average value for ag land was at 93.04% of the required value set by the state of North Dakota in 2021. Dickey County is required to average their values between 90% and 100% of the value the State of North Dakota places on Dickey County. The state value has dropped, bringing the average value at 97.32% of the required value. Upon the recommendation of Flaherty, a decision was made to equalize the values to be an average of 95%.

Flaherty presented residential sales ratios for 2021. Based on the sales of the past year, our average is at 88.4% of the sales ratio from residential sales in 2021. Dickey County is required to average the values between 90% and 100% of the sales ratio for sales in the county. A minimum average of increase of 2% will be required to meet the state requirement. Upon the recommendation of Flaherty, a decision was made to increase the values to be an average of 93% for residential property in Dickey County.

Flaherty presented commercial sales ratios for 2021. Based on the sales of the past year, our average is at 84% of the sales ratio from commercial sales in 2021. Special Commissioner Meeting February 17, 2022

Chairman John Hokana called the meeting to order at 1:35 pm. Present via electronic means were Joel Hamar, Marke Roberts, Jerry Walsh, Dean Simek, and KLJ Engineer Bryan Tykwinski. Present at the Courthouse were Chairman John Hokana and Highway Superintendent Jeff Hagen.

Hokana turned the meeting over to Tykwinski to update the Commission on information received from the ND Department of Transportation. ND DOT has informed Tykwinski that Dickey County could borrow ahead additional years on the federal aid money to help fund the County Road 8 project this summer. The plan is to currently borrow ahead five years, but ND DOT would allow that to be ten years. Discussion followed concerning the ARPA money Dickey County has received, along with the House Bill 1505 money. The Commission were concerned that the borrowing ahead of federal aid money out ten years could hinder road repairs to be done in future years.

Dickey County's federal aid balance is \$746,828 and the Dickey County's estimated allotment for 2022 is \$242,190. The County is able to borrow any number of years up to the 10 years. Any money not used from the federal aid fund will have to come from county funds. Sheppard stated that the requirements of HB 1505 require the funds be used on road and bridge projects, but not to be used to pay the county match on federal aid dollars. The HB 1505 money therefore could be used to pay toward the cost of the Highway 8 project that is above and beyond Dickey County's cost share. The ARPA money from the federal government could also be used on this project, but discussion was to not spend all the money on one road and that some funds could be used on other upcoming road projects.

Commission all agreed they didn't feel comfortable borrowing ahead up to ten years. Hamar made a motion to continue the project as it was originally planned without the underseal and to borrow ahead on the Federal aid to 5 years, using a large portion of the HB 1505 and a portion of the ARPA money to fund the balance. Roberts seconded. Roll call with Hamar yes; Roberts yes; Simek yes; Walsh yes; Hokana yes. Motion carried.

Hokana made a motion to adjourn at 2:10.
